**So Says Mr. Heitkemper On His Return From San Francisco
—Klamath Falls Should Be Beautified So As to Make
Good Impression on Visitors and Strangers**

Mr. Heitkemper, Jr., who has just returned from San Francisco, where he was attending to business and also arranging for some attractions for the Klamath Falls Street Carnival, says that the one thing that pleases him most is to get back to Klamath Falls. "I am glad," said Mr. Heitkemper, "to get back where everyone you meet looks prosperous and there is no evidence on every hand of the poor and unfortunate. In San Francisco, after I would go out to a good dinner and just begin to enjoy myself, I would go out on the street, and could not go a block without being stopped half a dozen times by cripples and beggars asking for alms. It spoils all one's pleasure as a man who lives in Klamath county cannot help feeling sympathy for a person compelled to live anywhere else."

"You would be surprised how well known Klamath Falls is down in California. This city is better known in San Francisco than any of the large cities in the United States. Just the mention of Klamath Falls attracts more interest and attention than would that of New York or Chicago. Nearly everyone you talk to is planning to come here in the spring or some time next year. Some want to come for pleasure and some for business."

"They all seem to be acquainted with the proposed automobile road to Crater Lake, and I venture to say that when it is built, thousands of cars will come in here every year from California."

"This city ought to have about \$100,000 to spend on improvements. The streets should be improved, the sidewalks fixed up and the lawns and yards beautified, so that people com-

ing in here would be favorably impressed. I believe the charter ought to be amended to allow of the bonding of the city to put in a sewerage system and other necessary changes. We are well advertised, but people are bound to be disappointed in seeing the city in bad condition and will be discouraged from making investments."

THIRTEEN WAS LUCKY.

A party, consisting of Will Hous-ton, Bert Withrow, Geo. McDonald, M. H. Wampler, N. L. Fletcher, and Dr. Shoemaker, of San Jose, returned Saturday from a hunting trip in the northern part of the county and on Rogue River. The party left on the thirteenth day of the month, were gone thirteen days and returned with thirteen deer.

TIMBER FOR SALE.

Two tracts in Tps. 26, 14 E., and 37, 14 E., comprising 1160 acres; known as the Woodard Tract. Will be at Marshall House, Klamath Falls Friday, October 2nd. After that date address 294 W. 4th street, Eugene, Oregon. Porter Woodard. 28-6t

A very pleasant and agreeable evening was given Mr. and Mrs. Butcher at their home Saturday evening by a body of the High School girls. It was a complete surprise to Mr. Butcher but his wife seemed "to have been next." The girls came prepared with a very palatable and generous luncheon and a merry evening was enjoyed by all.

An advertisement in the Herald will bring results—TRY IT.

SECURES ATTRACTIONS FOR STREET CARNIVAL.

G. Heitkemper, Jr., returned Saturday night from a trip to San Francisco, where he went in the interest of the Carnival. While in the city Mr. Heitkemper arranged with several attractions which will be present and take part in the big show. Several other amusement enterprises are anxious to come here Carnival week and the probability is that the visitors to the Fair will witness the greatest aggregation of shows ever gathered together in this part of the country.

Mr. Geo. O. Brandenburg and Wm. Wagner leave in the morning for Bonanza, Merrill and other points to advertise the fair in that section of the country. By the time these gentlemen return the Big Carnival will be advertised from one end of the county to the other. They will endeavor to cover the entire county before they return. The committee have received several thousand attractive posters, together with other advertising matter, which will be distributed in different parts of the county. The committee will hold a meeting tonight and will endeavor to get the program in shape for the week.

SUPREME COURT TO HEAR MEDFORD LIQUOR CASE.

Considerable attention will be given next week by the liquor and prohibition interests to the hearing of the Medford liquor case in the Supreme Court at Salem.

The Medford liquor case has been set for hearing in the Supreme Court Wednesday, October 7, at 10 o'clock. In this case Circuit Judge Hanna of Jackson county held that the charter of the city of Medford, adopted by the people prior to the temperance vote of the people last June, was supreme over the local option law and that therefore since the charter gave the city the right to license saloons the temperance vote in June does not prevail.

APPOINTED TO FOREST SERVICE.

The Forest Service has just announced the following appointments on National Forests: Jasper Tungate, Forest Guard on the Crater National Forest, Oregon, for duty on the Klamath Indian Reservation; Robert J. McCann, Forest Guard on the Deschutes National Forest, Oregon.

FOREST SERVICE BUILDS GOOD ROADS IN OREGON.

Improvement work to be performed by the United States Forest Service in the State of Oregon during the present season will entail an expenditure of \$75,000. The plans contemplate that this money shall be utilized in opening the forest reserves to a greater use by the people rather than in providing quarters for the reserve officers. Greater efforts will also be put forth in prevention and control of forest fires.

Building of roads and trails is now in progress in many portions of the state, and when completed will be largely used by stockmen, tourists and farmers in crossing the ranges, which have heretofore been inaccessible, for the reason that there was no one to open them up. A remarkable piece of road work has just been completed in the Fremont National forest. Eighteen miles of road have been constructed on an air line between Lakeview and Sican. This makes a saving of 28 hours to the traveler between the two points. By the old trails it required two and three-fourths days to make the trip which is now accomplished in 12 hours. Sican is the outfitting and supply point for stockmen and ranchers of the Lakeview district. Forest Supervisor Guy M. Ingram constructed this road on a 12 per cent grade. Forty per cent of the distance is cut through solid rock, and for a number of miles it cost about \$1000 a mile.—Lakeview Examiner.

GORMAN'S COMEDY COMPANY.

A Treat of the Season Has Been Secured for the Theatre Patrons of Klamath Falls.

J. M. Castleman, advance agent for the Gorman Comedy Company, is in the city making arrangements for the appearance of the company at the Opera House on Thursday evening, October 1st. Everything about this company is high class and up to date. Comedians that are comedians and not has-beens or would-bes, that are singers, dancers, the best in their line and performers that are known for their ability to act. This high-class company will present the laughing comedy success "Who is Who." The only serious thing about this side-splitting farce is to figure how to get a few moments' ease from hard laughter. Everywhere from the Atlantic to the Pacific coast it has been a great success and pronounced by all one of the funniest of all funny comedies.

Besides this roaring comedy, there are seven all star Vaudeville acts. These acts have been played in all the leading Vaudeville circuits of the East and West. In this great array of talent are Alexis, the world's greatest Spanish dancer, pronounced by President Diaz of Mexico as the greatest dancer that ever visited Mexico. Eddie Lang, the Dutch comedian, singer and dancer. "Enough said." O'Day and Gold, high-class sketch artists, assisted by Miss Bates in their latest comedy playlet success entitled "The Man." Harold Yates, minstrel man in monologue singing, dancing and whistling. He is known as Emperor Yates of the Fun Trust. As a whistler he has few equals.

Jack Keys, the ladies' favorite, will render all the latest song hits of the day. Blanchfield & Fisher, comedians, in their humorous act, "The Actor and the Dutchman." Nothing but fun and lots of it and never fail to keep the audience in a roar of laughter. McPhail the Great, peer of all female impersonators, known as the male Lillian Russell. This act has been featured all over the world and heralded by the entire theatrical world as in a class by itself. Not only an impersonator, but as a soprano singer with a wonderful voice that seems hard to believe the owner is not a woman, and as a dancer, McPhail is a past master in the art with his graceful movements and gestures. So all who attend Gorman's comedy and vaudeville entertainment can see a high class performance seldom given by a travelling company and out of the ordinary. At the Opera House on Thursday evening, October 1st, for one night only and at popular prices.

AT THE OPERA HOUSE.

New tonight: The Night Watchman; Ellixir of Strength; My Uncle's Testament, and the great coasting scene, Boboloughing. New Songs.

Geo. T. Baldwin Tells of the Enthusiasm at Medford Good Roads Convention—With Klamath's Help Crater Lake Automobile Road Is Assured of Success

Judge Geo. T. Baldwin returned Saturday evening from Portland and Medford. In speaking of the Good Roads Convention and the Crater Lake Road committee at Medford, he says that it was one of the most enthusiastic meetings he ever attended.

"The people of Medford are all alive," said Mr. Baldwin. "They are very much in earnest over the Crater Lake road and if Klamath county does as well as Jackson, we are assured of a state appropriation that will assure the building of the road. We can hardly realize the vast importance of this road for Klamath county. I believe that five years after the road is built the people of this county will get back annually, the money they have spent, from the tourist travel from California alone."

"The road from Medford to Klamath Falls by way of Crater Lake will be about 130 miles long and it will become known as one of the greatest scenic roads in the world. This will attract thousands annually from every part of the United States, who will spend weeks and months on their trip through the country. The Upper Lake will become one vast summer resort, and it will be impossible to estimate the money that will be left in the county by the tourist and sportsman seeking pleasure. This will be a benefit to every property owner and business man in the county."

"Col. C. S. Jackson, of Portland, is one of the most enthusiastic advocates of this road. His recent trip through this county and to Crater Lake has converted him into one of the greatest Klamath boosters we have, and I only wish it would be possible for him to attend the Good Roads meeting which is being planned for Klamath Falls. I am afraid, however, that he cannot be here, at least not until after the coming campaign is over. Judge Scott has promised to come. He is the president of the state Good Roads organization. The date for the meeting to be held at Klamath Falls has not been set yet, but it will have to be arranged to accommodate Judge Scott, who has engagements to attend a number of other meetings through out the state."

Four meetings were held on Thursday at Medford, one in the forenoon, two in the afternoon, and one in the evening. C. S. Jackson gave an enthusiastic talk showing some of the

benefits that would be derived from the building of the proposed road from Medford to Crater Lake and Klamath Falls. In speaking of the cost of such a road, he stated that he believed that Jackson and Klamath would each give \$50,000 toward the estimated cost, that the state would come forward with an amount equal to the combined appropriations of the two counties, and the national government would no doubt build the road in the reserve and Park.

When County Judge Neil was called upon he said: "I speak as the county court and feel sure I shall have the support of my constituents to a man and will say Jackson county will give \$25,000 this year and \$25,000 next year, provided you will raise in addition thereto an equal amount. Judge Neil spoke with such enthusiasm in the case that it brought forth a deafening applause."

It is estimated that the cost of the road from Medford to Klamath Falls will be about \$250,000. Of this Jackson county has pledged \$50,000; Medford, \$50,000, and the automobile owners \$50,000. It is expected that the state will contribute \$100,000; Klamath county, \$50,000, and the railroad \$50,000. The cost of building the highway would thus be easily met. Confidence is felt that with a demand from the entire state, the national government would build the road through the reserve at a probable cost of \$250,000. It has been very liberal in building roads in other National parks, especially in the Yellowstone, where it spent \$600,000.

It is easy to realize the benefit of the expenditure in this section of a half a million dollars for building roads. The greater portion of the expense would be for labor, as beyond a number of road building machines the money would be paid out in wages. A large portion of this money would be left in the county for provisions and supplies.

KY TAYLOR HOLDS RECORD.

While it is well known that Ky Taylor holds the record for other things he has added to his laurels and now claims to hold the record for duck hunting in this county. He claims to have never missed a shot on his trip Sunday and states that he killed a duck for every shell used, and as evidence of the fact he brought home the duck.
